University of Calicut Computer Applications	Bachelor of Commerce 2019 - 2022

Technical Skills

Threat Analysis	Incident Response	Risk Assessment
Access Control	Network Security	Vulnerability Management
DNS Management	Email Security	Cloudflare
TCP/IP Fundamentals	Linux CLI	Windows
Google Sheets	AppSheet	Google AppScript

Experience

Jaffah Dates & Nuts Kerala, India
IT Support & Accounts Executive December 2022 - Present

- Managed company domain migration to Cloudflare, configuring DNS records, SPF, DKIM, and DMARC email authentication.
- Identified company owner's personal contact information exposed in public WHOIS records and ensured privacy protection was enabled during the domain migration.
- Built internal automation tools using Google Sheets, AppSheet, and AppScript to improve workflow efficiency across multiple office branches.
- Progressed from a pure accounting role to managing IT infrastructure, security configurations, and automation tools, demonstrating initiative and self-directed technical growth.
